DETAILED ACTION

1. Applicant's response filed on 07/10/2003 has been fully considered. Claim 1 is amended, claims 18-35 are added, and claims 1-35 are pending.
2. Upon applicant's amendment and upon further consideration the following Restriction Requirement is executed.

Election/Restrictions

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A: Polymer latex having copolymer (claims 1-19),

Sub-species A1: Formula II (claims 2, 4-6, 18 and 19),

A2: Formula III (claim 3), and

A3: copolymer of ethylene vinyl acetate (claims 7-9);

Species B: Polymer latex having homopolymer (claims 20-35),

Sub-species B1: Formula II (claims 21, 23-25, 34 and 35),

B2: Formula III (claim 22).

4. Upon election of Species A, applicant is advised to elect one sub-species from A1, A2 and A3; and upon election of Species B, applicant is advised to elect one sub-species from B1 and B2.
5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is

Art Unit: 1774

finally held to be allowable. Currently, claims 1 and 10-17 are generic for Species A, and claims 20 and 26-33 are generic for claims Species B.

6. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

7. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

8. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1774

10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
